

INVESTOR PRESENTATION

LOCKER TOKEN

PRO SPORTS CRYPTO PLATFORM

LOCKER is the all-in-1 Crypto-Hub
to provide Pro Sports Teams & Players access to the New Digital World

It is now possible for Teams and Players to manage funds independently
No 3rd Parties needed

A White Label Solution, owned by its users, operating as a Decentralized App

Project Introduction

The \$LOCKER D-App is a whitelabel gateway for professional sports Teams and their Players to conveniently access the New Digital World of Crypto and Blockchain.

This decentralized Application will boast the best DeFi features available to date and will package it into a user-friendly app, that can be custom themed for the various Teams and Sports industries.

Besides facilitating a better way to manage funds independently on a global scale, the App will have an NFT Marketplace where Teams and Players can mint NFTs on their mobile and make them instantly available for fan purchase, payable in LOCKER Tokens.

Offering a Decentralized Platform to act as a Gateway for PRO Sports Teams and Athletes to conveniently access DeFi Tools and integrate Blockchain into their existing operations.

Areas of Focus

- Whitelabel Marketplace for NFT Creations and Sales
- Managing International Salary Payments
- Facilitating Instant Transactions
- Significantly Reducing Transaction Costs
- High-interest earnings through Yield-Farming
- Crypto Gateway for new users

International Payroll

Receiving funds

Education

Easy Access

Adoption & Integration

Bonus Payables

There is a great need for alternatives

Desired by both Teams & Players

- ✓ People want to join the Crypto & NFT craze, but have limited access and exposure. LOCKER is a 1-stop-shop D-App that can be customized to the Teams or Players desires. Instead of individual Teams taking the first step into this uncharted territory, we provide the framework for existing operations to be plugged into.
- ✓ Processing international payroll is a real pain-point for Pro Sports Teams. Athletes are moving locations on a regular basis and receiving international payments can often be a difficult task to process.
- ✓ Teams and Players will have the ability to easily write their own smart contracts within the App and deployed with no coding requirements. Used for items like Milestone Bonus payments and other contractual agreements.
- ✓ Being dependant on 3rd Parties to facilitate transactions (Transferwise, Revolut, Bankwires, etc.)
- ✓ Desire for crypto adoption, but limited available education and access for a convenient integration. \$LOCKER is their Gateway to access the New Digital World.

Available Markets (1 of many)

Annual Pro Sports Player Salaries

Facilitating Player Salary Payments through the LOCKER Platform is a multi-billion dollar international market. Teams and Players can benefit from immense amounts of savings in both transaction fees, administration and especially interest returns on crypto-held funds.

10 Billion USD in Annual Salaries

Immediate Market:

Optima World Sports is the Global Leader in Representation for professional Hockey players, Coaches, and staff. We write close to 300 contracts a year with an estimated amount of 30 million Euro in gross salaries with plenty of room for growth.

WHY CHOOSE LOCKER?

SOLUTIONS

The LOCKER D-APP is a combination of leading Blockchain and Crypto Solutions which can be conveniently accessed through a Team-themed WhiteLabel Web Platform.

The LOCKER Platform allows Players and Teams to use the power of [Blockchain](#) Technology and [Decentralization](#) with a user friendly D-App.

- Independent Fund Management – No 3rd Parties needed
- Easy Deposit & Withdrawal (Fiat – Crypto)
- Instant Transactions, Secure & Transparent
- Funds chosen to be stored on high interest Yield Farming Protocols via the LOCKER D-App can gain up to 15% APY
- Escrow Holdings with Milestone-based Payouts
- A Marketplace allowing Players & Teams to mint & sell NFTs instantly via mobile and making them available for fan purchase LIVE, purchased via the LOCKER Token

The Crypto Experience

It's Time to Adapt and Adopt

Being a first mover in the Sports Industry and having an extensive background in Blockchain and Crypto Development, positions the LOCKER Team at the lead of pioneering opportunities

Decentralization is an inevitable future – The LOCKER Platform provides Owners and Players the ability to leverage the benefits of Blockchain Technology with an easy to use interface. Join the new standard!

LOCKER is the Crypto-Token to access and engage the services available on the platform and can be used to pay for Merchandise like exclusive Player NFTs sold on the LOCKER Marketplace.

Holders of the LOCKER Token are part owners of the Platform and receive a 15% share on Yield-Farming gains made on the platform.

The Roadmap

Players & Teams can turn videos and images into NFT's and make them instantly available for Fan purchases thorough the LOCKER D-APP
