LOCKER

— INVESTOR PRESENTATION —

THE BIGGEST CRYPTO SPORTS PROJECT OF 2022

SPORTS, MEET THE BLOCKCHAIN

In the professional sports world, teams are always searching for new and innovative ways to increase revenue and shore up financial stability. One avenue that is often unexplored is the use of cryptocurrency and blockchain technology.

With the rise of Blockchain technology and the cryptocurrency revolution, a new opportunity has arisen for professional sports teams to capitalize on their modern fan base and change the game.

DIGITILIZING ANALOG MARKETS

In the times when blockchain solutions need to be an important part of the future decision making process for every business, Locker Token allows teams to use the best of the blockchain with custom whitelabel solutions including a full suite of services for the developing, fast paced industry.

The LOCKER App & Token is designed to easily integrate and monetize teams and their fan bases, providing a more secure and cost-efficient way to handle transactions, while creating a more engaged and connected fan experience.

WHAT IS LOCKER?

Locker Token is a governance and utility token specifically designed for professional sports teams, Players, and their fans. Offering a variety of Blockchain services like facilitating salary payment transactions, high interest lending, NFT authentications and so much more allow clubs and their supporters to interact and transact directly with each other, cutting out the need for expensive third-party intermediaries. Transactions are Instant, Secure, and low-cost.

Locker Token app can be used for a variety of purposes, such as player salaries, ticketing, contract creations, digital merchandise, and other fan experiences. A marketplace allowing Players & Teams to mint & sell NFTs instantly via mobile is in development. These NFTs will be made available for fan purchase via the Locker Token. Teams can enjoy the best of blockchain in a single team themed app.

HOW DOES LOCKER WORK?

Locker Token is based on blockchain technology, which is a distributed database that allows for secure, transparent, and anonymous transactions. The use of smart contracts ensures that all payments are executed as agreed upon. This makes Locker Token an ideal payment method for professional sports teams.

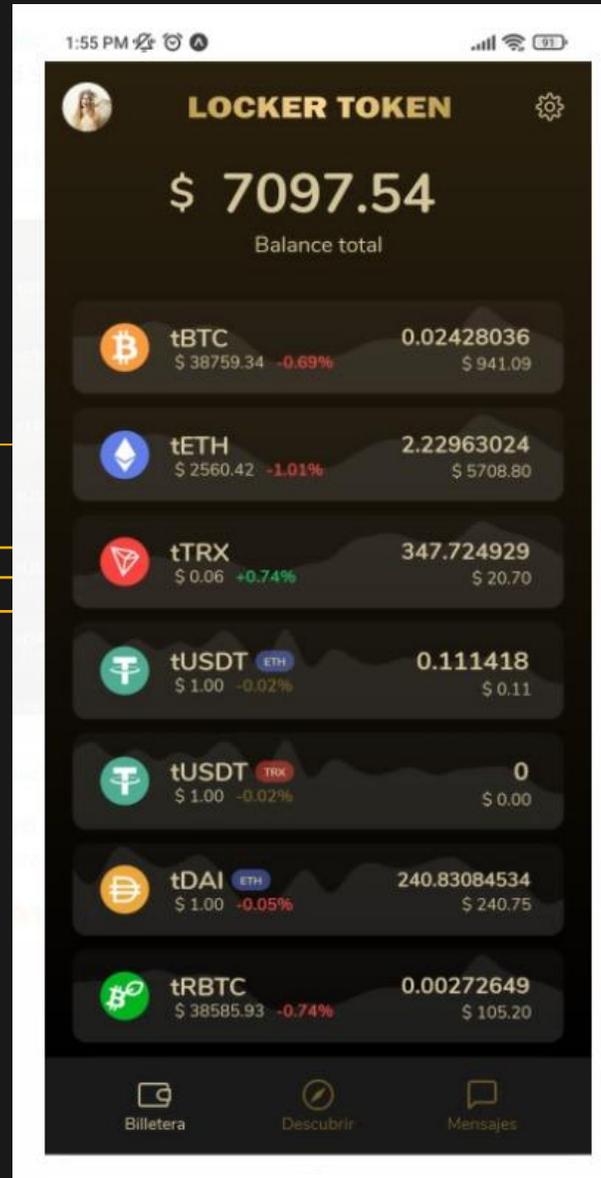

The LOCKER D-APP is a combination of leading Blockchain and Crypto Solutions which can be conveniently accessed through a Team-themed WhiteLabel Web Platform.

Locker Token is a new decentralized platform that aims to provide sports fans with a better way to connect with their favorite athletes and teams. The platform will use blockchain technology to create a safe and secure environment for fans to interact with athletes and teams, while also providing a way for athletes and teams to monetize their fan base. The Locker Token project is being developed by a team of experienced sports and tech entrepreneurs, and the token sale is scheduled for Q2 2022.

APP

ADVANTAGES

It can be used by teams of any size, from small amateur clubs to large professional organizations.

- **CHEAPER COST**

Utilizing cryptocurrencies for operation is cheaper and faster than traditional systems.

- **SECURE & TRANSPARENT**

Transactions on the Blockchain come with unprecedented security and allow for financial interaction between parties like never before.

- **BETTER NETWORK**

Transactions are instantaneous, so there is no need to wait for bank transfers or other slow methods of payment. P2B, B2B, B2P

Decentralization is an inevitable future –
The LOCKER Platform provides Owners and
Players the ability to leverage the benefits of
Blockchain Technology with an easy to use
interface without any development work.

LOCKER BENEFITS

Reduced costs: Teams can utilize the entire benefit of existing blockchain technologies without the prohibitively expensive development costs with the added benefit of reduced processing fees, which will save teams money.

Increased security: Transactions are carried out through secure smart contracts, which eliminates the risk of fraud, theft, or broken and unfulfilled contracts. traditional methods of payment (e.g., cash or credit cards) can be subject to theft or fraud.

LOCKER BENEFITS

INCREASED SECURITY

Transactions are carried out through secure smart contracts, which eliminates the risk of fraud, theft, or broken and unfulfilled contracts. traditional methods of payment (e.g., cash or credit cards) can be subject to theft or fraud.

TICKETING & SO MUCH MORE

Locker Token can be used to purchase tickets, merchandise, and other team experiences. This allows fans to interact with their favorite teams in a more engaging way

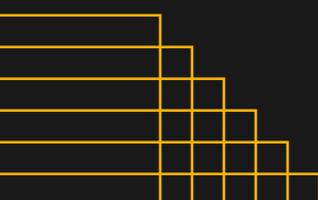

INCREASED REVENUE

Cryptocurrency is still in its early stages, so there is great potential for growth in this market. By implementing Locker Token into their fanbase operations, teams can tap into this rapidly expanding economy

IMPROVED FAN EXPERIENCE

By using cryptocurrency as a primary payment method, teams can create a more connected fanbase by giving them easy access to team-related goods and services. This will help foster greater loyalty among fans while also providing an additional stream of revenue for teams

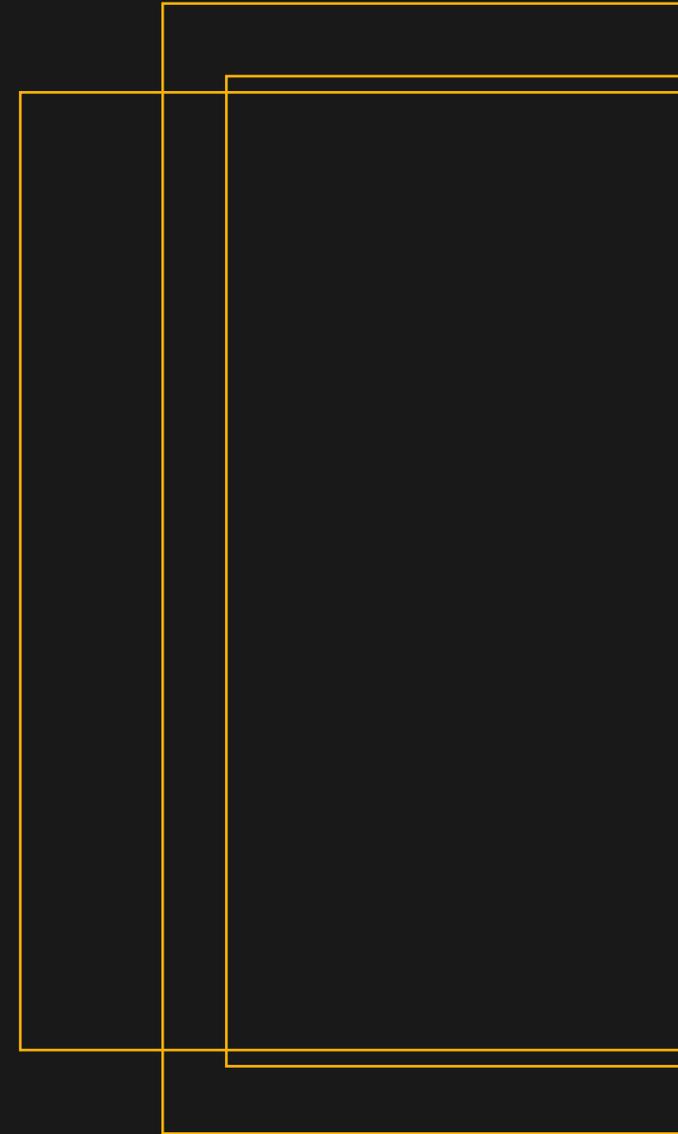

TECHNICAL

The Locker D-App is the first platform to offer a complete solution for the management of funds within the Sports industry. The Platform allows Players and Teams to manage their funds without the need for third-party involvement. The Locker token is a decentralized and secure digital asset built on the Ethereum blockchain, it serves as the backbone of the Locker D-App and is essential for accessing its features.

The Platform also offers easy Deposit and Withdrawal options for both Fiat and Crypto currencies, as well as Instant Transactions and Secure and Transparent Fund Management. The Locker D-App will give Teams and Players a better way to manage their finances and connect with their fans. By using blockchain technology and NFTs, the platform will create a more efficient and secure system for managing digital assets and interactions, saving a team millions in private development costs and putting the world of crypto at their fingertips.

THE LOCKER APP

The ultimate way for Teams and Players to connect with their fans and embrace the new digital world of Crypto and Blockchain.

FINANCIAL

The Locker D-App will enable Teams and Players to better manage their income and expenses, as well as keep track of their Payroll/Salary, Milestone-based contract deals, NFT sales and other income. The Platform allows for the independent management of funds without the need for 3rd party involvement. The App will feature a built-in wallet to store LOCKER Tokens and other cryptocurrencies including integrations with major payment processors and banks.

SMART CONTRACT SOLUTIONS

Facilitating Player Salary Payments through the LOCKER Platform is a multi-billion dollar international market. Teams and Players can benefit from immense amounts of savings in both transaction fees, administration and especially interest returns on crypto-held funds.

AUTHENTIC NFTS

Users will need Locker Tokens to purchase NFTs on the platform, as well as to make other payments such as for merchandise or tickets, and use exclusive parts of the app.

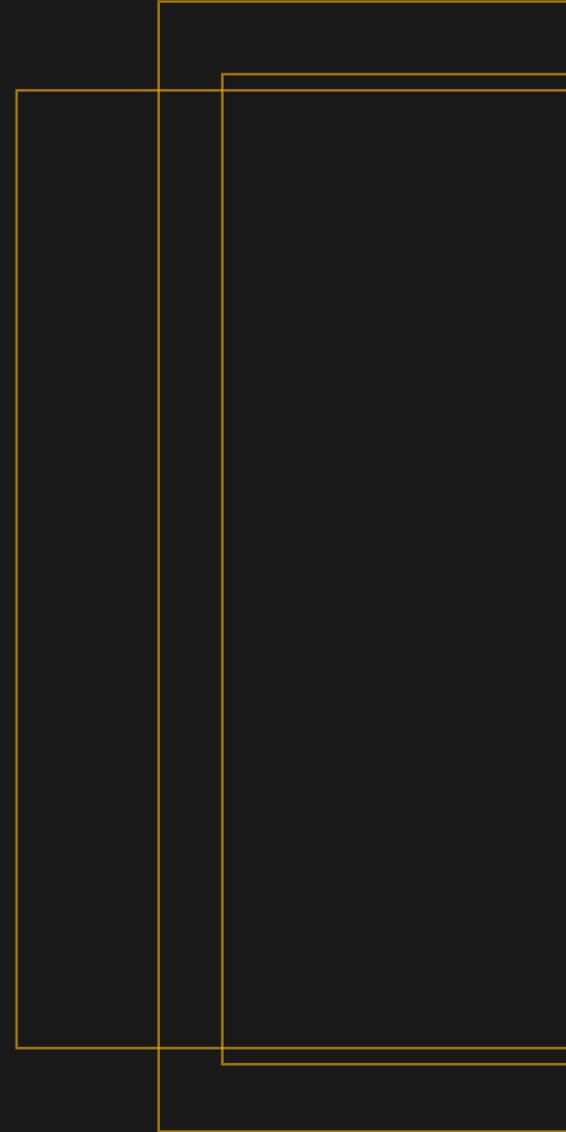

NFT

The Locker Platform offers a Marketplace where Players and Teams can mint and sell NFTs instantly via mobile. These NFTs can be purchased by fans LIVE, via the Locker Token. This allows fans to directly support their favorite Players and Teams, while also having access to unique and exciting collectibles.

OUR VISION

The Locker team is composed of experienced entrepreneurs, developers, and marketers with a wide range of skills and expertise. The team has a strong background in business administration, software engineering, marketing, and blockchain technology. Our Team is dedicated to building a user friendly platform that will revolutionize the sports industry.
